

**We connect health
and social care.**

Agenda

1. Unite Us + NowPow
2. Unite Us Solutions for HEALI needs
3. Roadmap & Next Steps

Why We're Excited

- Our **missions** are in sync: together we will **scale** across the country
- This is **reducing fragmentation** between health and social care providers, and allow communities to better coordinate and support individuals seeking services
- Our **vision** for the future of social care is aligned: 1) importance of a robust, high fidelity resource directory, 2) strong closed loop referral network, 3) ability to identify and address needs, 4) measure impact

We have the resources, people, and proven processes.

We know what works and we
can do it at scale.

User Support

Networks Team of 300+

A single client journey across the community

A person should only have to tell their story once.

The screenshot shows the UNITE US web application interface. At the top is a navigation bar with 'UNITE US' logo, 'Dashboard', 'Clients', 'Reports', and 'My Network'. A search bar contains 'Sara Jones'. The main header for the client profile shows 'Kiki Williams' with a 'CONSENT ACCEPTED' status, 'DOB 8/12/1948 (Age 72)', 'TEL (789) 876-6556', and 'HOUSEHOLD 1'. Below this is a 'REFER KIKI' button. A sidebar on the left contains tabs for 'Overview', 'Profile', 'Cases', 'Forms', 'Uploads', and 'Referrals'. Under 'Overview', there are sections for 'Care Team' (listing Brian Longo and Charley O'Donnell), 'Open Cases' (listing Benefits Navigation and School Meals), and 'Client Timeline'.
